

Self-adhesive films for **floor graphics** applications

ASLAN®

EXPERTISE IN SELF-ADHESIVE FILMS

ASLAN floor graphics-solutions

Design floors in a whole different way and use them for eye-catching advertising! Whether for indoors or outdoors, smooth or rough floors, carpets or asphalt: ASLAN can provide the right solution for any surface. We have lots of self-adhesive digital printing films that can be combined with a variety of slip-resistant protective laminates to create your ideal floor graphics. As an added advantage, once printed and laminated, the floor graphics film is fire-rated as a complete, bonded unit and so can be used in airports and train stations, etc.

Self-adhesive digital printing films

Floor graphics digital printing films for outdoor use – protective laminate required

Can be removed easily in one piece without leaving any residue, durability of up to 6 months depending on mechanical load

For rough floors White, for short- to medium-term use on a variety of rough surfaces such as asphalt and paving stones (e.g. pavements and outdoor steps)

WrapTheStreet ASLAN DFP 46

For smooth floors White, for short- to medium-term use on smooth surfaces such as polished natural stone or tiles, no discolouration of the substrate by ink or glue

WrapTheFloor ASLAN DFP 47

Floor graphics digital printing films for indoor use – protective laminate required

For smooth floors White, for short- to medium-term use on smooth surfaces such as polished natural stone or tiles, no discolouration of the substrate by ink or glue

WrapTheFloor ASLAN DFP 47

For carpeted floors White, for short-term use on low-pile carpets, can be removed in one piece without leaving any residue or damaging/dicolouring the carpet

WrapTheCarpet ASLAN DFP 49

Protective laminates for digital printing films

Floor graphics protective laminates for indoor and outdoor use

Insurance protection against personal injury, durability of up to 6 months depending on mechanical load

Highly slip resistant

Transparent, matt, protects prints on floors, R13 classified according to DIN 51130, slip resistance in wet barefoot areas according to DIN 51097 (class B), 140 µm

Premium FloorProtect ASLAN MP 300

Slip resistant

Transparent, matt, protects prints on floors, R9 classified according to DIN 51130

Outdoor FloorProtect ASLAN MP 326

2-in-1 solution: ASLAN Print'nGo

Floor graphics digital printing films for indoor use – NO protective laminate required

For short-term use on smooth floors, insurance protection against personal injury, durability of up to 6 months depending on mechanical load

For smooth floors

White, highly slip resistant, R13 classified according to DIN 51130, slip resistance in wet barefoot areas according to DIN 51097 (class B)

Print'nGo ASLAN DFP 43

Transparent, highly slip resistant, R13 classified according to DIN 51130, slip resistance in wet barefoot areas according to DIN 51097 (class B)

Print'nGo ASLAN DFP 44

White, slip resistant, R9 classified according to DIN 51130, can be removed easily in one piece without leaving any residue

Print'nGo ASLAN DFP 33

Slip resistance classification

The ASLAN floor graphics range includes both digital printing films and protective laminates that meet the requirements of slip resistance classes R9 and R13. The R9 certified self-adhesive films meet the minimum requirements for indoor floor coverings in general areas while the R13 certified versions meet the requirements of the highest slip resistance class, required for use in commercial kitchens and guest rooms for example. In addition, the R13 films also meet the standard for slip resistance in wet barefoot areas according to DIN 51097 (class B) as applicable in, for example, the changing room areas of swimming baths or in entrance areas.

Fire rating

For its floor graphics range, ASLAN offers an unparalleled fire classification according to Euroclass DIN EN 13501-1. This applies to all digital printing films used in conjunction with the floor graphics protective laminate Outdoor FloorProtect ASLAN MP 326 or Premium FloorProtect ASLAN MP 300. What's so special about them is that these composites made from digital printing film and laminate are classified in their printed state.
