MAGNET RECEPTIVE FERROUS FILMS WITH WHITEBOARD SURFACE

These films offer a ready to use 2-in-1-solution: they combine the magnet receptive function of our flexible ASLAN FerroSoft films with the easy write and wipe function of our whiteboard films. Thus, you can create high-quality, multi-functional communication surfaces in just a single pass.

Available versions:

Glossy, magnet receptive whiteboard film, white
FerroSoft Whiteboard ASLAN FF 550 **PVC free**

Matt, magnet receptive whiteboard film – suitable as a projection screen
FerroSoft Whiteboard Matt ASLAN FF 490

MAGNET RECEPTIVE FERROUS FILM WITH BLACKBOARD SURFACE

Self-adhesive ferrous film with a matt blackboard finish transforms any smooth surface into a magnet receptive blackboard. Can be written on with chalk pens and chalk any number of times without leaving shadows or ghosting.

wipe function.

GLOSSY PREMIUM WHITEBOARD FILMS

HIGH-QUALITY WHITEBOARD FILMS FOR EASY APPLICATION

These films are extremely scratch-resistant and can be written on any number of times with whiteboard markers – with no trace of ghosting or shadows.

Available versions:

Glossy whiteboard film for dry application in white
Whiteboard Dryapply ASLAN WBL 995 **Dryapply**

PVC free whiteboard film in white
Whiteboard PP Dryapply ASLAN WBL 998 **PVC free**
Dryapply

HIGH-QUALITY SCRATCH-RESISTANT WHITEBOARD FILMS

These films can be applied onto any smooth surface, such as doors or walls. Writings with whiteboard markers can be easily wiped off dry using a soft cloth. Even frequent writing does not leave ghosting or shadows.

Available versions:

Glossy whiteboard film in white
Whiteboard ASLAN WB 995

Glossy whiteboard film, clear
Clearboard ASLAN CB 90 **PVC free**

Glossy whiteboard film in six colours*
WhiteboardColour ASLAN WBC 996

*Additional colours are available on request.

Benefits of ASLAN Dryapply technology:

- Ideal combination of adhesive, backing and structural characteristics
- Extremely fine air egress channels allow quick and easy bubble-free application
- Can be easily applied onto large surfaces

HIGH-QUALITY WHITEBOARD FILMS – SUITABLE FOR PROJECTIONS

These self-adhesive films can be applied quickly and easily onto smooth surfaces, creating additional media projection options. Writings with whiteboard markers can be easily wiped off dry using a microfibre cloth, without leaving any ghosting and shadows – a whiteboard and a projection surface in one!

Available versions:

Matt whiteboard film in white
WhiteboardMatt ASLAN WB 975

Matt whiteboard film, clear

**Numerous combination possibilities:
we are happy to advise you!**

BLACKBOARD FILMS

HIGH-QUALITY BLACKBOARD FILMS IN FOUR DIFFERENT VERSIONS

Our high-quality self-adhesive blackboard films are the ideal alternative to heavy chalkboards or blackboard paint. They can be cut into any imaginable shape or size and can be applied to smooth surfaces quickly and cleanly.

Writings with chalk or chalk pens (ASLAN BB 910 and ASLAN CR 63) can be cleaned with a damp cloth and do not leave any ghosting or shadows – this makes them the ideal medium for frequently changing messages.

Available versions:

Blackboard film for chalk and liquid chalk in black
PremiumBlackboard ASLAN BB 910

Blackboard film for chalk in black
Blackboard ASLAN C 61

Especially scratch-resistant blackboard film for chalk in black
Blackboard AntiScratch ASLAN CR 62

Scratch-resistant blackboard film for chalk and the liquid chalk pen ASLAN C-pen, clear
ClearChalk ASLAN CR 63

All blackboard
films are printable
with UV curable inks

MAGNET RECEPTIVE FERROUS FILM

This self-adhesive ferrous film makes any smooth surface suitable for placing magnets. It can be cut easily into any imaginable shape or size and can be combined just as easily with other self-adhesive ASLAN films to create a multi-functional whiteboard, blackboard or coloured memoboard.

Ferrous film, anthracite coloured
FerroSoft ASLAN FF 410 **PVC free**

PRINTABLE FERROUS FILM, MAGNET RECEPTIVE

With this white, matt ferrous film any surface becomes suitable for placing magnets. It is digitally printable, allowing you to create custom-designed magnet boards. In combination with our clear chalkboard and whiteboard films it can additionally be written on with chalk or whiteboard markers.

WRITABLE GLASS DECORATION FILM

GLASS DECORATION FILM WITH WRITABLE SURFACE

Create presentation areas by turning just about any transparent surface into a whiteboard! With this ASLAN glass decoration film you can create classy, decorative privacy screens with a whiteboard function – in any desired shape and size. Thanks to the ASLAN Dryapply technology, the film can be dry-applied easily and can be written on with whiteboard markers any number of times without leaving shadows or ghosting.

SELF-ADHESIVE REAR PROJECTION FILMS IN TWO DIFFERENT VERSIONS

ASLAN rear projection films are the ideal medium for striking, high-impact presentations of videos, live broadcasts and images. Applied onto a rigid, clear surface, they form a projection screen that can be operated by using standard projectors as well as interactive projection systems.

Both, the translucent and the transparent alternative, are characterised by their high level reproduction quality, strong contrasts and high colour brilliance even in bright environments with applications behind glass.

The transparent version provides a clear view: backgrounds, like objects exhibited in a shop window, can be incorporated creatively into multimedia design concepts.

Available versions:

Translucent rear projection film

RearProjection ASLAN RP 35

Transparent rear projection film

RearProjection Transparent ASLAN RP 36 PVC free

REAR PROJECTION FILMS
