ASLAN[®] 

EXPERTISE IN SELF-ADHESIVE FILMS

The image features a background of several rolls of red ASLAN tape. The rolls are arranged in a grid-like pattern, with some in the foreground and others receding into the background. The tape has a white core and a red outer layer. The word "ASLAN" is printed on the white core of the rolls. The text "ASLAN is" is overlaid on the image in a large, white, sans-serif font. The "ASLAN" part is significantly larger than the "is".

ASLAN is

flexible

innovative

versatile

ASLAN means
expertise in **self-**
adhesive films.
Has meant it for
more than 65
years.

But who are the people behind the brand?
What makes this company tick?
And what are the benefits for you?

In this brochure, we invite you to take a look
behind the scenes.

Experience the exceptional.
Innovation is an ASLAN tradition.

It all started with Alfred Schwarz's revolutionary
invention, when he founded 'Alfred Schwarz
Kunststoffe' in 1950 near Cologne, Germany.

Experience the exceptional.
Innovation is an ASLAN **tradition.**

The result of his work and flagship of the subsequent
product range:

'Mipofolie'. The first ever self-adhesive protective film for
geographical maps, technical drawings etc. Highly flexible,
foldable and resistant to all kinds of damage by weather or
liquids.

Product innovation after product innovation has followed.
Since the early days, ASLAN developers have kept one step
ahead of what was familiar at the time, making possible
what seemed impossible and bringing Alfred Schwarz's
inventive spirit to life on a daily basis.

Tradition and innovation combined. 'TradInnovation' is what
we call it, brought to life.

Yesterday Today Tomorrow

Want some examples? –
Here is a selection of our 'TradInnovations'

- 
- 1950** **Mipofolie:** the first self-adhesive protective film for geographical maps and technical drawings
 - 1961** **Mipofix:** printed self-adhesive decoration film in a variety of designs for surface protection and design
 - 1970** **Blackboard Film:** self-adhesive film designed for writing on with chalk, for use on furniture and doors, not only in children's rooms
Book protection films: broad range of self-adhesive films and processing aids for protecting and repairing books
 - 1985** **ASLAN 85 K:** the world-famous self-adhesive stencil film for painting and lacquering works on truck curtains, vehicles and planes
 - 1993** **ASLAN W 15:** the first ever self-adhesive opaque blackout film for illuminated advertising
 - 1999** **ASLAN BE 2000:** the first self-adhesive PVC-free book protection film
 - 2004** **ASLAN Metal Effect Films:** the refined self-adhesive solution for producing exclusive interior and exterior advertising messages
 - 2006** **ASLAN FF 400:** self-adhesive ferrous film for creating magnetically-receptive surfaces
ASLAN WB 995: glossy self-adhesive whiteboard film that can be wiped off again and again without leaving any ghosting
 - 2008** **ASLAN EL 300:** self-adhesive glass decoration film with ASLAN Dryapply technology for fast, easy and bubble-free dry application
 - 2009** **ASLAN DFP 46:** self-adhesive digital printing film that adheres to asphalt
 - 2016** **ASLAN SE 75:** highly reflective, scratch-resistant self-adhesive mirror effect film

We freely admit it:

At ASLAN, we are proud to be part of a success story, as illustrated by this long list. Which is why we continue dreaming up innovations to this day, innovations that will be the must-have products of tomorrow.

Let's take a closer look at the many different **sectors** we supply and deliver **self-adhesive** solutions to today:

ASLAN offers a comprehensive portfolio of high-quality self-adhesive films in this market.

This includes glass decoration films, stencil films, coloured films, digital printing films, memoboard films, metal effect films, double-sided adhesive films and much more.

Sign Making
&
Digital Printing

ASLAN has been offering self-adhesive stencil films for painting and lacquering applications since 1985, standing out as the recognised specialist in this market.

Whether on smooth surfaces, textiles or rough walls: ASLAN has the right stencil film for you.

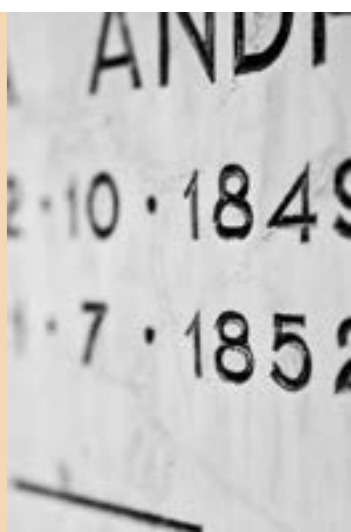

Painting
&
Lacquering

For glass, stone or other surfaces: Our broad range of self-adhesive stencil films for sandblasting works holds the right solution for you.

After use, our special adhesives guarantee easy removal of the ASLAN sandblasting films without leaving residues.

Sandblasting
Stone | Glass

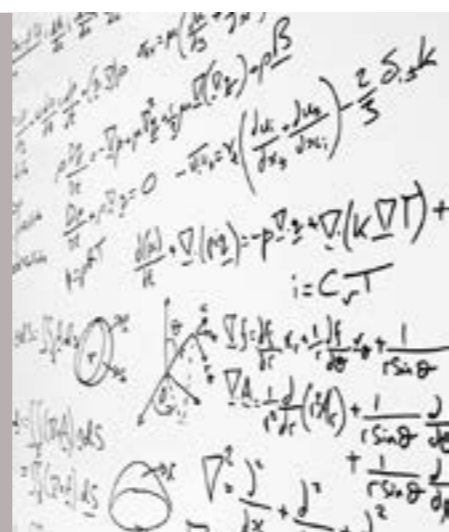

For everyday office use,
ASLAN provides a number
of creative self-adhesive solutions.

Just two examples:

ASLAN's self-adhesive memoboard films transform practically any smooth substrate into a magnetically-receptive surface, a blackboard for writing on with chalk, or a whiteboard.

ASLAN's double-sided adhesive films can make maps, prints, posters or blueprints self-adhesive in no time at all, adhering to a wide variety of substrates.

Office &
Education

ASLAN provides a comprehensive range of self-adhesive book protection films for long-term, optimal book protection.

For torn pages or broken book spines, ASLAN also has the right solution: just try our self-adhesive repair materials!

Books

Our self-adhesive films are just perfect for innovative design and turning creative architectural ideas into reality, whether it's for walls, facades, flooring or glass surfaces.

Interior &
Architecture

ASLAN makes your ideas stick. Whatever may be the current hot topic in crafts, you're likely to need self-adhesive film for it.

In addition to double-sided adhesive films and self-adhesive rigid PVC-films, we offer a variety of self-adhesive decoration films for creative applications.

Hobby &
Crafts

Product developers

Innovators

Anyone

who likes to think
outside the box

Our self-adhesive rigid PVC-films are the ideal backing for exclusive, high-end lamp shades. They can be covered with a wide range of textiles, enabling you to create your own personalised and atmospheric lighting solutions.

Lamp Shades

In the field of medical technology there are complex requirements regarding the use of adhesives.

With special skin-friendly and allergy-tested adhesives, ASLAN also offers the right solution for medical applications.

Medical Technology

Whenever you come to us to set us a new challenge like "How could I attach this to....?" or "How could this work with....?", our very own squad of Gyro Gearlooses will set its creative gear in motion. If there is a solution, we will find it.

Industrial Projects

Self-adhesive
solutions:
individual &
tailor-made

In addition to its standard portfolio, ASLAN offers you customised special solutions. These are developed in dialogue with you.

You can choose between various materials, liners and adhesives or have your own materials coated – with the adhesive properties that you specify. Our team provides you with skilled support at all times when developing your desired self-adhesive product or finding the optimal solution for your contract coating project.

In all these different sectors – ranging from sign making to book protection to tailor-made special developments – you benefit from a diversified product range as well as the possibility of bespoke solutions with the “**Made in Germany**” seal of quality. ASLAN’s application-specific advice ensures high-quality results, again and again.

The people behind the brand:
Proud to be ‘an **ASLAN**’ and
proud to be working for you!

But **what sort** of **people** are they?

As an owner-managed, independent company based just outside of Cologne, ASLAN represents the true essence of a medium-sized enterprise. More than 60 employees are dedicated to development, production, sales and logistics.

Stefan Arlt | Dispatch Manager

Wild horses wouldn't be able to drag Stefan away from his home turf – it's where his family is, his life, his heart. His main passion is cycling. Fittingly, moving things smoothly and rapidly from A to B is also his key strength in his dispatch job with ASLAN. "I'm a highly motivated person; in stressful situations, I keep calm and try to stay on top of things."

Dr. Robin Höher | Product Developer

In his spare time, Robin loves to enjoy relaxing days cooking up elaborate 3-course meals for his wife, Meike. "The trickier, the better!" he likes to say. – At ASLAN, he develops adhesives and materials for particularly challenging applications. "In general, I'm inspired by things that are creative, but also have a technical aspect to them." We think that's spot on!

Dorothea Hempel | Accounts & Financial Director

Jazz meets Accounting. – That's right: Dorothea, our head of number crunching, is an avid singer. Originally from East Germany, she sings in five different languages across all kinds of genres, having even been on stage.

Friendly but firm in her professional role, she ensures that all is shipshape and Bristol fashion when it comes to the bottom line. When things get a bit hectic, she likes to let off steam by walking, climbing or spinning.

Safak Bas | Production Manager

Family-man Safak likes to relax doing scuba diving, photography, skiing and taking long nature walks. He has always been fascinated by how the tiniest things become visible through macro shots.

Keeping an eye on the small as well as the big things, at home and at work, helps him get things right. All except standard German. How come? "As my in-laws are from Cologne and always speak in the local dialect, I talk the same way, too..."

Kiriakos Vaikos | Sales

The only thing Kiri would take to a desert island is the Sky Sports Package, so he wouldn't miss any match of his favourite football club ... and his wife. But he'd much rather stay at the lovely home they share together, anyway.

Although Kiri barely even speaks Greek, he's Greek enough to be completely chilled. Which helps him in his sales role to always maintain a sunny mood and a keen eye for the best solution. "I'm extremely happy to be part of such a great team, where we're all here for each other and all the little wheels are working together in perfect harmony."

Three generations experience

ASLAN is innovative, flexible & versatile.

“The experience of three generations, as well as skilled employees, who are dedicated to the company and its customers, coupled with ongoing customer communication and a strong customer service philosophy, are the basis of our success and have allowed us to establish ourselves as a constant in the market. – I, too, am proud to be an ‘ASLAN!’”

Oliver Schwarz | Owner & CEO
